

DIY KITS

NO-SEW BLANKETS

A group of 4 to 6 individuals can work together to complete one blanket. The estimated time to finish each blanket is approximately 45 to 60 minutes per group. Each group will require one pair of scissors, with fabric scissors being the most effective option for clean and precise cuts.

Supplies & Tools:

- Fleece fabric (two coordinating pieces)
Kits are easily found online or at Joanne Fabrics
- Scissors or rotary cutter & mat
- Ruler

Directions:

Project Tip: Cut both layers of fleece at the same time for even edges.

- Layer the Fabric: Place fleece rectangles wrong sides together (patterned sides facing out).
- Cut Corner Squares: Cut out a 5" square from each corner of both fleece pieces.
- Make the Fringe: Cut 5" deep slits into the fleece at 1" intervals around all sides.
- Tie the Knots: Tie the blanket together by knotting the top and bottom strips in each pair.
